

Trigger Art

Edition und curation of art-events

Trigger Art is:

Claude Steiner, Nadia Honarchian, Dominique Lauber and Masha Malashkevich

Publisher and Art Board

The publishers Trigger Art is an Art Board, carried by the active Artists C. Steiner and N. Honarchian. It was founded 1999 under the name Nachtschatten Art and recently renamed into Trigger Art. The initiators deal with the publishing of visionary fantastic Artwork as the organisation of Art Events. The publishers founders comprehend the *ars fantastica* as an undervaluated field of figurative arts. Psychonautic Art visualizes images from the within and is therefore accessible for us all, without basic theoretical and stylistic knowledge.

Trigger Art plans to do further exhibitions, publish books and produce Lithographies. Besides this organisation wants to offer a platform for exchange of information for the constant growing international Artists clan.

The publishers run a webpage under www.triggerart.net, wich supplies besides information of artists and events following products:
